

## BENEFITS COMMUNICATION

# Need help enrolling Spanish-speaking employees?

Whether you have a group with one or many Spanish speakers, we are here to help. Sun Life can offer a targeted enrollment experience for these employees with our Spanish enrollment support. This allows your Spanish-speaking employees to get a better understanding of the benefits offered in their language.

### Here are a few ways we can help:

#### Benefit counselors

Over 90 of our trained counselors speak Spanish (and other languages).

#### Benefit highlighters

Your Enrollment Manager can provide Spanish summaries with the click of a button now.

#### Pre-communication materials

Announce the availability of benefits with emails, flyers and posters in Spanish.

#### Telephonic enrollments

Translators are available to help employees as they are enrolling and answer questions about the benefits offered.

#### Maxwell Health platform

Offers a Spanish language translation setting in the platform that helps employees easily navigate, understand and enroll in benefits.

Understanding benefits is key so that employees know how they help their overall financial security and can see where they might have coverage gaps. Offering Spanish materials is just one of the many ways we can help educate employees. We look forward to helping your Spanish speakers learn about their benefits.
